**GENERAL TIPS**
- Follow assembly instructions closely
- Do not overload the tables (220 lbs maximum straight, 330 lbs maximum corner)
- The input voltage should be within 108-132V
- Use the glides to properly level the table before use
- When moving the table, do not tilt the table on one leg or misalignment may occur
- Before first use, perform reset operation
- If after trouble shooting the problem persists, contact Customer Service for further assistance
First Time Use:

Step 11:

It is important to perform the reset procedure stated below before using your My-Hite table for the first time.

1) Reset Operation

1. Press and hold \(\wedge\) & \(\vee\) simultaneously for more than 3 seconds till legs begin to move down at half speed of normal operation.

2. Keep pressing buttons till legs move down to the lowest position and rebound 2-5 mm, then stop.

3. Release together. Reset is completed

2) Set Memory Position

1. Adjust table to desired height. Then press and hold \(\wedge\) & \(\vee\) buttons. Display will flash. Then release.

2. Press S, then press button 1 or 2 or 3 or 4 within next 3 seconds. Display position 1,2,3,4 is saved.

(c) After reset, memory settings need to be set again.

3) Removing Presets

1. Press and hold button S more than 10 seconds. Display will flash “———”

2. Release button S. Press button 1 within 3 seconds. The screen displays “H-O” or “H-1” indicating preset is off or on.

3. Press \(\wedge\) or \(\vee\) to change the current function of turn on or off. “H-O” - express function is off. “H-1” - express function is on.

4. Touch and hold button S for 2 seconds. Preset is on or off.

4) Set Maximum Height

1. Press and hold \(\wedge\) then release. Adjust table to desired maximum height.

2. Press and hold S, then press and hold 3 for about 3 seconds. Release. Letter “L” flashes on the screen. This means the table will not go above this height.

5) Set Minimum Height

1. Use \(\wedge\) & \(\vee\) buttons to adjust table to desired minimum height.

2. Press and hold S, then press and hold 3 for about 3 seconds. Release both buttons. Letter “L” flashes on the screen. This means the table will not go below this height.

6) Clear Minimum/Maximum Height

1. Press and hold S. Without releasing button S, press and hold 2 for 3 seconds.

2. Code “-C-” will clear.

7) Display in Inches or Centimeters

Press and hold S. Without releasing button S, press and hold \(\vee\) for 3 seconds. Release both buttons. The height information will toggle between inches and centimeters.
