

Vektor Chair | Control Guide & Features

Vektor's unique height-adjustable 3D armrests, lumbar support, and breathable mesh back work together to contour to the individual's preference.

Comfort

Featuring a plush fabric cushion that delivers maximum comfort and support.

Tilt Tension Adjustment

Adjusting the back rest tension with a simple twist of the knob.

3D Arm Rests

With up/down, forward/back, and pivoting arms, the 3D adjustable padded arm rests provide adequate support for your arms and neck.

Back Tilt Lock

Synchronous mechanism with 3 lock position keeps users in control of their desired position.

High Quality Mesh Backing

High performance mesh backing helps users stay comfortable all day long by providing upper back support.

Smooth Glide Casters

5-star plastic based with 2.5" casters provide a smooth glide and even movement.

Lumbar Support

Adjustable lumbar support can be changed while in a seating posture providing just the right amount of lower back support.

Pneumatic lift

Achieve your desired height with an easy to adjust paddle shift, smoothly taking you up or down.

Seatpan Slide

A push of the lever allows for seat pan to be adjusted to provide just the right amount of space between the back of your knee and the seat cushion.
